

"We could not possibly manage without the dedicated, caring team of Passion for Support. They have been supporting my husband for almost two years, providing a reliable daily tailor-made, flexible package dependent on his complex needs and allowing him to be cared for at home."

Being a relatively small team there is continuity of staff we know well who have built up a trust and awareness of all his needs which is extremely important as he has profound hearing problems and communication can be difficult. They also provide respite support allowing me to take a few hours break – this can consist of staying in the house or perhaps going out for a run in the countryside or a visit to a local park for freedom and fresh air – thus maintaining a degree of independence." Mrs T (Halifax)
